

AUTODOC SAP/HSE

SENDING AND ARCHIVING DOCUMENTS

MANAGING, SENDING AND ARCHIVING MARKETING DOCUMENTS, REPORTS AND NEWSLETTERS WITH A SINGLE CLICK IN MULTIPLE FORMATS

- ✓ An extensive solution for sending and archiving documents, specially developed for SAP Business One.
- ✓ Reduce labor, postage and paper, and reduce the margin of error.
- ✓ Sending in batches is enabled without losing the personal touch.
- ✓ Fully adaptable and adjustable to customer specific needs and the wishes of different businesses.
- ✓ Keep everybody up to date without additional time investments.

WHO IS IT FOR?

In almost every business documents are transferred and archived internally as well as externally. AUTODOC streamlines this process and offers an increase in efficiency for every business.

SOLUTIONS

AUTODOC simplifies the management of for instance marketing documents, reports, status updates, invoices and newsletters.

SAVING TIME WITH AUTOMATED ACTIONS

- ✓ The automated, fast and without error sending of printer jobs, pdf, e-mail, fax and SMS.
- ✓ Adjustable recurrent sending of documents.
- ✓ All sent documents are automatically archived based on your preferred variables.
- ✓ With document recognition based on the documents content, layouts are automatically adjusted.

"Because of a small investment, extensive possibilities and a huge increase of efficiency, the average return on investment time on AUTODOC SAP/HSE is three months!"

FAST AND SECURE

- ✓ Sending of document batches, even with several document types.
- ✓ Easy monitoring of all document shipments with the log file.
- ✓ Build-in data encryption and password protection.

ENHANCED COMMUNICATION

- ✓ You will easily keep your customers up to date about their orders or service requests. This results in better customer service and you do not need to invest time in status updates.
- ✓ Your customers experience a personal touch with the personalization of documents.
- ✓ By setting up mailing lists, you define which customer needs to receive communications. This way you eliminate undesirable mailings of for instance catalogs and newsletters.
- ✓ Management is easily kept up to date on projects and financials with periodically sent time- and revenue reports.

COMBINATION WITH OTHER ADD-ONS

- ✓ Together with Magento and Retail XML a customized and personalized document flow per customer is created.

SENDING AND ARCHIVING DOCUMENTS WITH A SINGLE PUSH OF A BUTTON
